IN THE CLAIMS

1.-12. (Cancelled)

13. (Previously Presented) The shower surround as recited in claim 19, wherein said multiple of horizontal shelf slots are segmented.

14. (Previously Presented) The shower surround as recited in claim 19, further comprising a shelf removable engaged with any of said multiple of horizontal shelf slots.

15. (Previously Presented) The shower surround as recited in claim 14, wherein interfaces between said slots and said removable shelves provide a "snap-in" interface

16. (Cancelled)

17. (Cancelled)

18. (Previously Presented) The shower surround as recited in claim 19, wherein said horizontal shelf slots comprise blind openings that extend into said corner portion.

19. (Currently Amended) A shower surround comprising:
a base portion;
a first wall portion;
a second wall portion; and
a corner portion engaged with said base portion, said first wall portion and said second wall portion, said corner portion comprising a multiple of horizontal shelf slots arranged vertically along a length of said corner portion, wherein said horizontal shelf slots comprise at least partially arcuate openings in said corner portion to support a corresponding multiple of shelves.

60,137-207; 136-3032-U

20. (Cancelled)

21. (New) The shower surround as recited in claim 19, wherein at least one of said at least partially arcuate openings is defined by an upper wall portion, a lower wall portion, and an arcuate rear wall portion of said corner portion.

22. (New) The shower surround as recited in claim 21, wherein said at least one of said at least partially arcuate openings includes a uniform nominal depth extending into said corner portion.

23. (New) The shower surround as recited in claim 19, wherein each one of said at least partially arcuate openings is adapted to support one of said corresponding multiple of shelves.

24. (New) The shower surround as recited in claim 19, wherein said corner portion, said upper wall portion, said lower wall portion, and said arcuate rear wall portion comprise a single, continuous piece.
